Multiprocess Rotomat MRX

Prozessvielfalt, Sicherheit und Wirtschaftlichkeit
 Process Variety, Safety and Economic Efficiency

Die Multiprozessautoklaven Rotomat MRX ermöglichen die freie Auswahl des Sterilisationsverfahrens. Für jedes Produkt kann der maßgeschneiderte Prozess hinsichtlich Inhalt und Verpackung, Sicherheit, Energie-, Wasser- und Zeitbedarf konfiguriert werden.

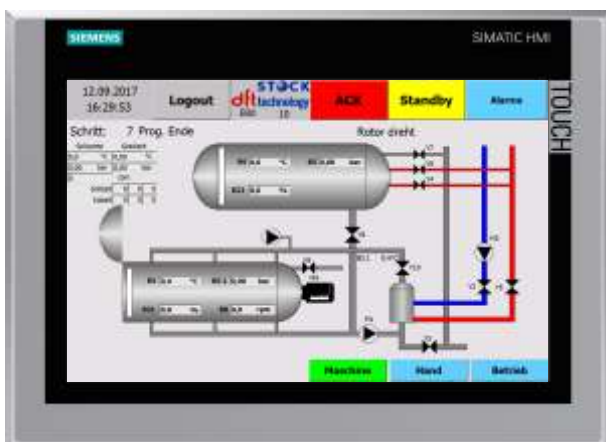

The Multi-Process Retorts Rotomat MRX provide a free selection of the sterilization procedure. For any product the customized process may be configured regarding content and packaging, safety, and consumption of energy, water, and time.
